now in its second edition this concise comprehensive overview of canadian criminology uses traditional and contemporary theories to explain the nature and causes of crime by relating paradigms to recent cases crime and criminology remains a current and remarkably accessible introduction to canadian crime and theory

samuel barber is one of america s most popular classical composers the main source for this book is a panoply of vivid and eminently readable interviews by peter dickinson for a bbc radio 3 documentary in 1981 the book also includes three of the few interviews extant with barber himself

in the 21st century environmental harm is an ever present reality of our globalised world over the last 20 years criminologists working alongside a range of other disciplines from the social and physical sciences have made great strides in their understanding of how different institutions in society and criminal justice systems in particular respond or fail to respond to the harm imposed on ecosystems and their human and

non human components such research has crystallised into the rapidly evolving field of green criminology this pioneering volume with contributions from leading experts along with younger scholars represents the state of the art in criminologists pursuit of understanding in the environmental sphere while at the same time challenging academics lawmakers and policy developers to explore new directions in the study of environmental harm

the main objective of the second edition of the routledge handbook of critical criminology is twofold 1 to provide original chapters that cover contemporary critical criminological theoretical offerings generated over the past five years and 2 to provide chapters on important new substantive topics that are currently being studied and theorized by progressive criminologists special attention is devoted to new theoretical directions in the field such as southern criminology queer criminology and green criminology the diverse chapters cover not only cutting edge theories but also the variety of research methods used by leading scholars in the field and the rich data generated by their rigorous empirical work in addition some of the chapters suggest innovative and realistic short and long term policy proposals that are typically ignored by mainstream criminology these progressive strategies address some of the most pressing social problems facing contemporary society today which generate much pain and suffering for socially and economically disenfranchised people the new edition of the handbook is a major work in redefining areas within the context of international multidisciplinary critical research and in highlighting emerging areas such as human trafficking internet pornography and image based sexual abuse it is specifically designed to be a comprehensive resource for undergraduate and postgraduate students researchers and policymakers

this book critically explores the legal tools concepts principles and instruments as well as cross cutting issues that comprise the field of international environmental law commencing with foundational elements progressing on to discrete sub fields then exploring regional cooperative approaches cross cutting issues and finally emerging challenges for international environmental law it features chapters by leading experts

in the field of international environmental law drawn from a range of countries in order to put forward a truly global approach to the subject the book is split into five parts the foundations of international environmental law covering the principles of international environmental law standards and voluntary commitments sustainable development issues of public participation and environmental rights and compliance state responsibility liability and dispute settlement the key instruments and governance arrangements across the most critical areas of international environmental law biodiversity wildlife freshwater forestry and soils fisheries marine pollution chemicals and waste air and atmospheric pollution and climate change crucial developments in seven distinct regions of the world africa europe north america latin america south east asia the polar regions and small island states cross cutting issues and multidisciplinary developments drawing from multiple other fields of law and beyond to address human rights and indigenous rights war and armed conflict trade financing investment criminology technology and energy contemporary challenges and the emerging international environmental law regimes which address these the changing climate forced migration marine plastic debris and future directions in international environmental law containing chapters on the most critical developments in environmental law in recent years this comprehensive and authoritative book makes for an essential reference work for students scholars and practitioners working in the field

building on knowledge within the fields of green and eco global criminology this book uses empirical and theoretical arguments to discuss the multi dimensional character of eco global crime it provides an overview of eco global crimes and discusses them from a justice perspective the persistence of animal abuse and speciesism are also examined together with policies aimed at controlling the natural world and plant species pollution by large corporations rights of indigenous peoples and the damage caused by the mineral extraction are also considered providing new ideas and insights which will be relevant on a global scale this book is an interesting and useful study of the exploitation of nature and other species it will be

invaluable for students and scholars globally working within or connected to the field of green and eco global criminology the book will also be important for the participants of various social movements especially the environmental and animal advocacy movements
